🔗 Cryptographic Hash Chain

Previous Hash:

0000000000000000000000000000000000000000000000000000000000000000

⬇

Current Hash:

0000000000000000000000000000000000000000000000000000000000000000

SHA-256 • Immutable • Tamper-Proof

Note: The hash chain ensures that no audit log entry can be modified without detection. Any change breaks the cryptographic link between entries.
